## My Blood Sugar Log

Tracking your blood sugar and sharing the results with your healthcare professional are important parts of managing your diabetes.

Sched	ule fo	llow	-up	appoin	tmer	its to
review	your	log	and	adjust	your	clicks:

Appointment (1st)	

#### Appointment (2nd)

#### **STEP 1:** Starting on V-Go®

Healthcare Professional Only

Your healthcare professional will identify your target blood sugar range and number of V-Go clicks you should take before each meal.

Patient Name:				
My target blood sugar level:	Before Breakfast	tBefore Lunch/Dinner/B		
My V-Go preset basal rate:	V-Go 20	V-Go 30 V-Go 40		-Go 40
Number of V-Go mealtime clicks t (1 click = 2 units of insulin):	o use			
Breakfast: clicks Lunch:	clicks	clicks	Snacks:	clicks

#### **STEP 2:** Tracking your blood sugar reading

Record your blood sugar reading **before meals** and the number of V-Go clicks you took.

	<b>Breakfast</b> Blood Sugar/Clicks		<b>Dinner</b> Blood Sugar/Clicks		Bedtime (Blood suga reading only
Day 1	/	/	/	/	
Day 2	/	/	/	/	
Day 3	/	/	/	/	
Day 4	/	/	/	/	
Day 5	/	/	/	/	
Day 6	/	/	/	/	
Day 7	/	/	/	/	
Avg.	/	/	/	/	

### **IMPORTANT:**

Call your healthcare professional immediately if your blood sugar level is below \_\_\_\_\_ or above \_\_\_\_ for \_\_\_\_ days.

# **Adjusting Mealtime Clicks**

This side should be completed by your healthcare professional only.	From the recordings last and the average V-Go c meal going forward.	t week, calculate t	he average daily	blood sugar read
