All Zealand Pharma employees have a duty to promptly report any violation of the Compliance Program or any company policies using any of the available company

For items and activities that are not prohibited, Zealand Pharma has set an annual aggregate spending limit of \$1,500 per medical or healthcare professional in California, as required by California SB 1765. This amount represents an upper limit rather than a spending goal or a usual, customary or typical amount for medical or healthcare professionals. This limit excludes amounts attributable to drug samples, financial support for continuing medical education, and payment at fair market value for legitimate professional services. In setting this limit, Zealand Pharma has taken into account the size of the company and its portfolio and may revise this limit as the company and/or product portfolio changes.
